Isisekelo Sempilo:Participant Support and Thetha Nami

Overview	
Identification	AHRI.IsisekeloSempilo.Participant.Support.and.Thetha.Nami.Datasets.V1
Version	V1.0.0
<p>Abstract</p> <p>Isisekelo Sempilo: HIV prevention embedded in sexual health: A pilot trial to optimize peer (Thetha Nami) delivery of HIV prevention and care to adolescents and young adults in rural KwaZulu-Natal. Study aim: The overarching goal is to arrest the HIV epidemic and reduce its negative impact on young people in SA through rapidly developing and testing the efficacy and efficiency of tailored HIV care and prevention (including PrEP and UTT) that address demand, optimise access and support adherence in adolescents and young people. Our aim in this phase of the programme is to integrate exciting advances in participatory intervention development, process evaluation and adaptive trials to explore the hypothesis that, innovative and tailored HIV prevention interventions developed with and for young people will optimize models to deliver HIV prevention and care to men and women aged 16-29 living in a high HIV incidence area of rural South Africa. We will use the pilot to optimize the intervention and understand the relative importance of the different components in supporting the uptake of HIV care, prevention and contraception.</p> <p>Specific objectives for the pilot trial:</p> <ol style="list-style-type: none"> 1. Measure the effectiveness of innovative and tailored HIV prevention interventions developed with young people to reduce infectious HIV in 16-29-year-old men and women in rural KZN 2. Evaluate the effectiveness and efficiency of sexually transmitted infection tests with sexual health focused HIV prevention counselling to increase uptake of HIV prevention in eligible 16-29-year-olds in rural KZN. 3. Evaluate the effectiveness and efficiency of area-based peer-navigator psychosocial support to increase uptake for HIV prevention in 16-29-year-olds in rural KZN 4. Assess the acceptability and feasibility of evaluating the effectiveness of multiple combinations of interventions on reducing infectious HIV using multi-arms within a common platform. 	
Kind of Data	The type of data included in the file:survey data, census/enumeration data, aggregate data, clinical data, event/transaction data, program source code, machine readable text, administrative records data, experimental data, psychological test, textual data, coded textual, coded documents, time budget diaries, observation data/ratings, process-produced data, etc. No description just a single phrase, e.g., Genetic sequences
Unit of Analysis	Basic unit(s) of analysis or observation that the study describes: For PANGEA is each record a sequence from a specimen, or are there multiple records for a single specimen or study participant

Scope & Coverage	
Keywords	Sexual reproductive health Sexually Transmitted infections (STI); peer navigators, social mobilisations, adaptive trial, , differentiated HIV Prevention, HIV pre-exposure prophylaxis (PrEP)
Time Period(s)	2020-2022
Countries	South Africa
<p>Geographic Coverage</p> <p>Demographic surveillance area of the Africa Health Research Institute; KwaZulu-Natal, uMkhanyakude district</p>	
<p>Universe</p> <p>We conducted a 2x2 factorial design intervention pilot trial including 1743 men and women aged 16-29-years old and living in the AHRI surveillance area. The study duration was 29 months. For our primary outcomes of interest, we assessed uptake of comprehensive HIV prevention services, including Pre-Exposure Prophylaxis (PrEP) and Universal Test and Treat (UTT) and the reduction of the proportion of individuals at a population level with infectious HIV (population viral load).</p>	

At enrolment following informed consent participants were randomised to

Enhanced Standard of Care (SOC) - Clinic-based initiation and follow-up with standard HIV prevention and treatment package: All enrolled participants, irrespective of arm were provided with a barcoded referral slip and an appointment time to attend a clinic of their choice. Clinical services are provided by study nurses in two primary health clinics (PHC) situated in a busy commercial area with adolescent and youth friendly services, and two mobile clinics that visit fixed sites across the more remote areas of the AHRI surveillance area once every 2 weeks. All clinic attendees (irrespective of trial arm) were offered HIV counselling and Point-of-Care Testing (PoCT), and immediate initiation of ART if positive or PrEP if negative and eligible according to South African National PrEP guidelines. This is followed by a telephone follow-up at day 7, and months 1, 2, 6, 9 and 12 for repeat HIV testing (if on PrEP), laboratory HIV viral load or ELISA confirmation if needed, safety bloods, clinic-based counselling and adherence support and PrEP/ART refills (BFC311/18). Clinic attendees were also offered family planning support and syndromic management for STIs and, if male, referral to voluntary male medical circumcision (VMMC), as per South African National Department of Health Guidelines.

Intervention 1 - Thetha Nami peer navigator support: participants who were randomised to this intervention were offered the support of a named pair of Thetha Nami peer-navigators who work in their area. Thetha Nami are area-based men and women aged 18-30 years, post matriculation, who are employed to provide a package of health and social support to young people aged 16-29 years living in their areas. Under Thetha Nami peer navigator support, participants were provided with information about the peer navigator team that are allocated to their area, and informed that unless they object their contact details (name, phone number and place of residence) would be passed onto the named peer navigators who would be attempting to contact them within 7 days. If they agreed, the details of the peer navigator were entered into the REDCAP survey on the tablet and the participant details were electronically shared with the peer navigator. The peer navigators then contacted them within 7 days and provided them with any support they required including supporting them to access the clinical service they have been referred to. They used a brief service recipient questionnaire that was completed within REDCAP on a tablet to identify the participants needs and services required, including the clinical service they are allocated to and the support needed. The peer navigators provided ongoing support to the participants randomised to them following enrolment and until the endline survey was completed.

Intervention 2 - Isisekelo Sempilo with SRH: Participants who were randomised to this intervention provided samples for sexually transmitted infections (STI) testing at enrolment. In practice this meant that females provided 3-4 self-taken vaginal samples or first catch urine and men provided first catch urine. These samples were then sent to AHRI laboratories to be processed for gonorrhoea and chlamydia and trichomonas. Participants were provided with a clinic appointment at a study clinical of their choosing (see enhanced SoC above) in 7 days to receive the results of their STI tests. They were informed that if they default the appointment and any of the results are positive a nurse or research assistant will attempt to contact them by phone or in person to ensure that they and their partners receive the appropriate therapy to treat the infection. During the clinic appointment they received counselling around sexual health, fertility intention, contraception, HIV counselling and testing as part of sexual health counselling with PrEP to stay negative and ART in the context of staying well and Undetectable = Uninfectious (U=U). They will also receive aetiological treatment and partner notification if any of the STI or HIV results are positive. In addition to the SOC procedures, 3-monthly follow-up and adherence support in this arm included HIV viral load-based U=U and adherence counselling before PrEP/ART refills.

Over a period of 12 months after enrolment randomisation we collected routine data on uptake of Thetha Nami and Clinical Services as well as adverse events. At 12 months after enrolment we approached all those who consented at endline by phone, in their homes or wherever they preferred to be seen. Following Informed Consent, we conducted a brief redcap survey to collect information on uptake and experience of HIV prevention and care services, uptake of contraception and incidence of pregnancy, mental health (using PHQ9), and quality of life. We also offered point of care HIV testing and linkage to care, collect dry blood spot for HIV ELISA and HIV viral load, and offered STI testing and treatment to all. In addition, we conducted a mixed-method process evaluation to collect data on uptake and retention and fidelity of each component of the intervention; assess service users and providers and the community experience, i.e. which facets of the package are valued; and any social harms. A costing analysis will be undertaken to establish the cost of delivering the intervention through the different models of care.

<u>Sampling Procedure</u>

Data Collection	
Data Collection Dates	start 2020-03-05 end 2022-08-15

Accessibility
<p><u>Access Conditions</u></p> <p>The representative of the Receiving Organization agrees to comply with the following conditions:</p> <ol style="list-style-type: none"> 1. Access to the restricted data will be limited to the Lead Researcher and other members of the research team listed in this request. 2. Copies of the restricted data or any data created on the basis of the original data will not be copied or made available to anyone other than those mentioned in this Data Access Agreement, unless formally authorized by the Data Archive. 3. The data will only be processed for the stated statistical and research purpose. They will be used for solely for reporting of aggregated information, and not for investigation of specific individuals or organizations. Data will not in any way be used for any administrative, proprietary or law enforcement purposes. 4. The Lead Researcher must state if it is their intention to match the restricted microdata with any other micro-dataset. If any matching is to take place, details must be provided of the datasets to be matched and of the reasons for the matching. Any datasets created as a result of matching will be considered to be restricted and must comply with the terms of this Data Access Agreement. 5. The Lead Researcher undertakes that no attempt will be made to identify any individual person, family, business, enterprise or organization. If such a unique disclosure is made inadvertently, no use will be made of the identity of any person or establishment discovered and full details will be reported to the Data Archive. The identification will not be revealed to any other person not included in the Data Access Agreement. 6. The Lead Researcher will implement security measures to prevent unauthorized access to licensed microdata acquired from the Data Archive. The microdata must be destroyed upon the completion of this research, unless the Data Archive obtains satisfactory guarantee that the data can be secured and provides written authorization to the Receiving Organization to retain them. Destruction of the microdata will be confirmed in writing by the Lead Researcher to the Data Archive. 7. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Data Archive will cite the source of data in accordance with the citation requirement provided with the dataset. 8. An electronic copy of all reports and publications based on the requested data will be sent to the Data Archive. 9. The original collector of the data, the Data Archive, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses. 10. This agreement will come into force on the date that approval is given for access to the restricted dataset and remain in force until the completion date of the project or an earlier date if the project is completed ahead of time.

11. If there are any changes to the project specification, security arrangements, personnel or organization detailed in this application form, it is the responsibility of the Lead Researcher to seek the agreement of the Data Archive to these changes. Where there is a change to the employer organization of the Lead Researcher this will involve a new application being made and termination of the original project.

12. Breaches of the agreement will be taken seriously and the Data Archive will take action against those responsible for the lapse if willful or accidental. Failure to comply with the directions of the Data Archive will be deemed to be a major breach of the agreement and may involve recourse to legal proceedings. The Data Archive will maintain and share with partner data archives a register of those individuals and organizations which are responsible for breaching the terms of the Data Access Agreement and will impose sanctions on release of future data to these parties.

Variables Description

Dataset contains 319 variable(s)

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

SurveyRecord: Unique participant identifier

Information	[Type= continuous] [Format=numeric] [Range= 2-685] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-] [Mean=346.066 /-] [StdDev=196.505 /-]

PeerNavCode: Staff code of encounter

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

PeerNavSex: Peer navigator's sex

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Male	165	22.7%
2	Female	561	77.3%
3	Transgender	0	
96	Other	0	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

IntervStartDateTime: Date and time of encounter

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-]

IntervLocat: Place where young person was identified

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

IntervLocatDesc: Place where young person was identified - Description

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

Audience: Was the person/s you approached part of a Group of people or a Single individual

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Single individual	554	76.3%
2	Group of people	172	23.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

PartAge: Participant's age

Information	[Type= discrete] [Format=numeric] [Range= 15-30] [Missing=*]
Statistics [NW/ W]	[Valid=553 /-] [Invalid=173 /-]

PartSex: Participant's sex

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=554 /-] [Invalid=172 /-]

Value	Label	Cases	Percentage
1	Male	262	47.3%
2	Female	291	52.5%

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

PartSex: Participant's sex

Value	Label	Cases	Percentage
3	Transgender	0	
96	Other	1	0.2%
Sysmiss		172	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

GroupSize: How many people where in the group?

Information	[Type= discrete] [Format=numeric] [Range= 2-17] [Missing=*]
Statistics [NW/ W]	[Valid=172 /-] [Invalid=554 /-]

MalesInGroup: How many of the people were Male?

Information	[Type= discrete] [Format=numeric] [Range= 0-15] [Missing=*]
Statistics [NW/ W]	[Valid=172 /-] [Invalid=554 /-]

FemalesInGroup: How many of the people were Female?

Information	[Type= discrete] [Format=numeric] [Range= 0-10] [Missing=*]
Statistics [NW/ W]	[Valid=172 /-] [Invalid=554 /-]

PartLivingLocat: Location/Izigodi where the Participant/s is living

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=81 /-] [Invalid=0 /-]

PartLivingLocatDesc: Location/Izigodi where the Participant/s is living - Description

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=81 /-] [Invalid=0 /-]

AllocatePeerNav: Have you been allocated a Peer Navigator?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=75 /-] [Invalid=651 /-]

SurveyedWhere: The engagement with the person/s took place at:

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=726 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	School	14	1.9%
2	Health care facility - clinic/hospital	8	1.1%
3	Home	423	58.3%
4	Town	44	6.1%
5	Watering place	37	5.1%
6	Social gathering, specify	23	3.2%
7	Sporting event, specify	3	0.4%
8	Community meeting	4	0.6%
9	Remote / Online meeting	29	4.0%
96	Other, specify	141	19.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

SurveyedWhereDesc: The engagement with the person/s took place at: - Description

Information	[Type= discrete] [Format=character] [Missing=*]
-------------	---

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

SurveyedWhereDesc: The engagement with the person/s took place at: - Description

Statistics [NW/ W] [Valid=726 /-] [Invalid=0 /-]

SurveyedWhereOth: Place where young person was identified - Other specify

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=171 /-] [Invalid=0 /-]

EncounterMediumType: Method used for communicating with the participant

Information [Type= continuous] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=29 /-] [Invalid=697 /-] [Mean=6.931 /-] [StdDev=17.202 /-]

EncounterMediumTypeDesc: Method used for communicating with the participant - Description

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=29 /-] [Invalid=0 /-]

EncounterMediumTypeOth: Method used for communicating with the participant - Other specify

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=1 /-] [Invalid=0 /-]

HealthNeedsAssessed: Was the participant's health needs assessed?

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=724 /-] [Invalid=2 /-]

Value	Label	Cases	Percentage
1	Yes	484	66.9%
2	No	240	33.1%
Sysmiss		2	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistSexualHealth: Sexual health promotion

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	194	40.1%
2	Not successfully assisted	290	59.9%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasSexualHealthNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information [Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=290 /-] [Invalid=436 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	242	83.4%
2	Participant has been assisted previously on this service	46	15.9%
3	Peer navigator was not able to assist	1	0.3%
96	Other, specify	1	0.3%
Sysmiss		436	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

AssistHIVInform: HIV testing, care and prevention information and counselling

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	314	64.9%
2	Not successfully assisted	170	35.1%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasHIVInformNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information [Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=170 /-] [Invalid=556 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	125	73.5%
2	Participant has been assisted previously on this service	45	26.5%
3	Peer navigator was not able to assist	0	
96	Other, specify	0	
Sysmiss		556	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistPrEPCounsel: PrEP counselling

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	201	41.5%
2	Not successfully assisted	283	58.5%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasPrEPCounselNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information [Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=283 /-] [Invalid=443 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	221	78.1%
2	Participant has been assisted previously on this service	58	20.5%
3	Peer navigator was not able to assist	4	1.4%
96	Other, specify	0	
Sysmiss		443	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistVMC: Male circumcision (voluntary medical circumcision) (Not traditional circumcision)

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=169 /-] [Invalid=557 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	18	10.7%
2	Not successfully assisted	151	89.3%

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

AssistVMC: Male circumcision (voluntary medical circumcision) (Not traditional circumcision)

Value	Label	Cases	Percentage
Sysmiss		557	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasVMCNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=151 /-] [Invalid=575 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	110	72.8%
2	Participant has been assisted previously on this service	39	25.8%
3	Peer navigator was not able to assist	0	
96	Other, specify	2	1.3%
Sysmiss		575	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistUEqualU: U=U - HIV treatment benefits (ART) for your own health, sexual health and virili

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	96	19.8%
2	Not successfully assisted	388	80.2%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasUEqualUNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=388 /-] [Invalid=338 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	337	86.9%
2	Participant has been assisted previously on this service	51	13.1%
3	Peer navigator was not able to assist	0	
96	Other, specify	0	
Sysmiss		338	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistCondomProm: Condom promotion or provision

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	251	51.9%
2	Not successfully assisted	233	48.1%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasCondomPromNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
-------------	---

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

ReasCondomPromNotAssist: If not assisted, please provide the reasons for not successfully assisting

Statistics [NW/ W] [Valid=233 /-] [Invalid=493 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	179	76.8%
2	Participant has been assisted previously on this service	53	22.7%
3	Peer navigator was not able to assist	0	
96	Other, specify	1	0.4%
Sysmiss		493	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistGeneralHealth: General health counselling

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	101	20.9%
2	Not successfully assisted	383	79.1%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasGeneralHealthNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information [Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=383 /-] [Invalid=343 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	317	82.8%
2	Participant has been assisted previously on this service	66	17.2%
3	Peer navigator was not able to assist	0	
96	Other, specify	0	
Sysmiss		343	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistPostViolence: Post-violence care, (including sexual, physical or emotional)

Information [Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]

Statistics [NW/ W] [Valid=484 /-] [Invalid=242 /-]

Information [Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]

Statistics [NW/ W] [Valid=439 /-] [Invalid=287 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	403	91.8%
2	Participant has been assisted previously on this service	35	8.0%
3	Peer navigator was not able to assist	1	0.2%

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

ReasPostViolenceNotAssist: If not assisted, please provide the reasons for not successfully assisting

Value	Label	Cases	Percentage
96	Other, specify	0	
Sysmiss		287	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistPeerCounsel: Peer Counselor - any support from another young person with your health concerns

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	63	13.0%
2	Not successfully assisted	421	87.0%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasPeerCounselNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=420 /-] [Invalid=306 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	369	87.9%
2	Participant has been assisted previously on this service	51	12.1%
3	Peer navigator was not able to assist	0	
96	Other, specify	0	
Sysmiss		306	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

NeedFollowUpTreat: Need following up on treatment?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=63 /-] [Invalid=663 /-]

Value	Label	Cases	Percentage
1	Yes	14	22.2%
2	No	49	77.8%
Sysmiss		663	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

InteresMedicPickup: Interested in medication pickup?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=63 /-] [Invalid=663 /-]

Value	Label	Cases	Percentage
1	Yes	18	28.6%
2	No	45	71.4%
Sysmiss		663	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

InteresAdhereCounsel: Interested in Adherence counselling? - to any chronic medication and care incl A

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=63 /-] [Invalid=663 /-]

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

InteresAdhereCounsel: Interested in Adherence counselling? - to any chronic medication and care incl A

Value	Label	Cases	Percentage
1	Yes	29	<div><div></div></div> 46.0%
2	No	34	<div><div></div></div> 54.0%
Sysmiss		663	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

InteresAdhereGroup: Interested in Adherence groups?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=63 /-] [Invalid=663 /-]

Value	Label	Cases	Percentage
1	Yes	19	<div><div></div></div> 30.2%
2	No	44	<div><div></div></div> 69.8%
Sysmiss		663	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

InteresVirtualGroup: Wants to join WhatsApp or other virtual groups?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=63 /-] [Invalid=663 /-]

Value	Label	Cases	Percentage
1	Yes	16	<div><div></div></div> 25.4%
2	No	47	<div><div></div></div> 74.6%
Sysmiss		663	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

OtherHealthNeeds: Other needs assessed or identified?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=484 /-] [Invalid=242 /-]

Value	Label	Cases	Percentage
1	Yes	11	<div><div></div></div> 2.3%
2	No	473	<div><div></div></div> 97.7%
Sysmiss		242	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

EscalateHealthProblem: Did you need to escalate a health problem?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=481 /-] [Invalid=245 /-]

Value	Label	Cases	Percentage
1	Yes	54	<div><div></div></div> 11.2%
2	No	427	<div><div></div></div> 88.8%
Sysmiss		245	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

SocialNeedsAssessed: Was the participant's social needs assessed?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=724 /-] [Invalid=2 /-]

File : AHRI.IsisekeloSempilo.ThethaNamiSupport.2022.v1

SocialNeedsAssessed: Was the participant's social needs assessed?

Value	Label	Cases	Percentage
1	Yes	235	32.5%
2	No	489	67.5%
Sysmiss		2	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

AssistSelfHelpGroup: Youth or self-help groups

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=235 /-] [Invalid=491 /-]

Value	Label	Cases	Percentage
1	Successfully assisted	33	14.0%
2	Not successfully assisted	202	86.0%
Sysmiss		491	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ReasSelfHelpGroupNotAssist: If not assisted, please provide the reasons for not successfully assisting

Information	[Type= discrete] [Format=numeric] [Range= 1-96] [Missing=*]
Statistics [NW/ W]	[Valid=202 /-] [Invalid=524 /-]

Value	Label	Cases	Percentage
1	Participant did not need the service	178	88.1%
2	Participant has been assisted previously on this service	23	11.4%
3	Peer navigator was not able to assist	0	
96	Other, specify	1	0.5%
Sysmiss		524	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

# DetailsOfSelfHelpGroup: Specify details on the self-help group			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=33 /-]		
# AssistSocialAssets: Referral to Social Assets programs: Bursaries			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=235 /-] [Invalid=491 /-]		
Value	Label	Cases	Percentage
1	Successfully assisted	22	<div><div></div></div> 9.4%
