ABSTRACT

The Hospital Information System(HIS) dataset contains hospital records of individuals who were admitted and discharged at Hlabisa Hospital between 01 January 2011 and 15 April 2019. The data contains one record per hospital admission for patients. Women admitted for normal vaginal delivery and their babies are not included in this dataset.

Hlabisa hospital is located in uMkhanyakude district and is situated in the north-west of the Hluhluwe /Umfolozi Game Reserve. The hospital serves communities in the Hlabisa, Mtubatuba and part of the big five municipalities. There are 17 clinics which fall under the hospital.

KIND OF DATA
Patients admissions and discharges

UNIT OF ANALYSIS
Hospital admission

Version

VERSION DESCRIPTION
v3.0.0

Scope

Access policy

ACCESS CONDITIONS

Access to the data requires accurate completion of the online data access application form accessible on the AHRI Data repository(<<https://data.ahri.org/>>). Data users are required to abide by the data use conditions stipulated on the application for access to the data. Failure to do so may result in their data access privileges being revoked by the Data Custodian. In order to recognise the effort and intellectual contributions of AHRI investigators in producing and curating the data, users of AHRI data must acknowledge the source of the data and abide by the terms and conditions under which the data is accessed and must cite the dataset in publication using the citation provided as part of this documentation. All analytical datasets published on the AHRI Data Repository are assigned digital object identifier (DOIs) and the DOIs can be found on the Data Repository under Study Description tab - Access policy. AHRI data users are required to always cite the dataset using the relevant DOI.
