AHRI.Core Dataset:Household Memberships

Overview

Identification	AHRI.RD01-06.CoreDataset.HouseholdMemberships
<u>Abstract</u>	Links individuals to households. One individual can be a member of more than one household at one time. i.e. Household Membership episodes can overlap. All Registered Individuals in ACDIS must be a member of at least one Household. i.e. it is a requirement. Members of a Household do not need to all be resident in the same place. Episodes of household membership describe, "where one belongs", as opposed to episodes of residency, which describe, "where one stays". Thus the appropriate question for household membership is: "Who belongs to this group?"
