## AHRI.HDSS.HSE Individuals-All

### Overview

<b>Identification</b>	RD07-99.ACDIS.HSE-I.All
<b>Version</b>	v2.0.0

#### Abstract

All current members of households with a current Residency in a Bounded Structure are eligible for the Household and Socio-Economic Survey "HSE" questionnaires.

Note that the questionnaire is part of household surveillance, and thus will normally be answered by a senior household member. Thus it is perfectly possible for the individual HSE record to be completed for individuals who have outmigrated or are already dead at the time the questionnaire is administered. The survey was first run during 2001. It was changed significantly when rerun in 2003. In 2006 it was shortened substantially, removing many items on expenditure and economic shocks. Since 2006 there have been very few changes. No survey was run in 2008. Users of this dataset are strongly encouraged to refer to the images of the questionnaires included in the annual datasets to check carefully for any changes in question wording, ordering, options offered etc. This document does not attempt to describe every single change and variation.

### Accessibility

#### Access Conditions

Access to the data requires accurate completion of the online data access application form accessible on the AHRI Data repository(<<https://data.ahri.org/>>). Data users are required to abide by the data use conditions stipulated on the application for access to the data. Failure to do so may result in their data access privileges being revoked by the Data Custodian. In order to recognise the effort and intellectual contributions of AHRI investigators in producing and curating the data, users of AHRI data must acknowledge the source of the data and abide by the terms and conditions under which the data is accessed and must cite the dataset in publication using the citation provided as part of this documentation. All analytical datasets published

on the AHRI Data Repository are assigned digital object identifier (DOIs) and the DOIs can be found on the Data Repository under Study Description tab - Access policy. AHRI data users are required to always cite the dataset using the relevant DOI.
